

### **Remarks**

In the application, claims 1 and 3 through 16 are presently pending. No claims have been allowed.

The non-final Office Action dated March 13, 2009, has been carefully considered. Claims 1, 10 through 12, and 15 are rejected under 35 U.S.C. §103(a) as obvious in light of U.S. Patents 6,006,183 (“Lai”) and 6,785,649 (“Hoory”). Claim 16 is rejected as obvious in light of Lai, Hoory, and U.S. Patent 6,393,403 (“Majaniemi”). Claims 2 through 9, 13, and 14 are objected to as depending upon rejected base claims but are noted to be otherwise allowable.

### **Amendments to the Claims**

The elements of claim 2 are added to claims 1, 15, and 16, and claim 2 is cancelled. Claims 3 through 6 and 8 are amended to depend from claim 1 rather than from the now cancelled claim 2.

Minor informalities are corrected in claims 1 and 2 through 16.

### **The Otherwise-Allowable Claims**

The Applicants wish to thank the Examiner for indicating that claims 2 through 9, 13, and 14 are allowable except for the fact that they depend upon a rejected base claim. To expedite prosecution, the elements of claim 2 are added to all of the pending independent claims (1, 15, and 16). Thus, all presently pending independent claims, as currently amended, are patentable over the cited art. The pending dependent claims include by reference all of the limitations of their antecedent independent claims and so are patentable for at least the same reasons as given above.

### **Conclusion**

This application is considered to be in good and proper form for allowance, and the Applicants request that the Examiner pass this application on to issue. If, in the opinion of the Examiner, a telephone conference would expedite the prosecution of this application, the Examiner is invited to call the Applicants’ representative at the number given below.
